Irisdale Gardens

Mrs. Norman S. Horton ROUTE 5 ELKHART, IND.

- . VISITORS MOST CORDIALLY INVITED
- . SPECIAL ATTENTION GIVEN GARDEN CLUBS
- MEMBER GACCREDITED JUDGE OF AMERICAN IRIS SOCIETY.

MEANING OF IRIS TERMS

SELF - is an iris with standards and falls of the same color and same intensity.

BICCIOR - same color, but standards lighter than falls.

NEGLECTA - is a purple bicolor.

PLICATA - petals sanded, veined, stitched, or

splashed with a deeper or different color.

VARIEGATA - yellow standards, with falls of darker color or heavily veined.

AMOENA - white standards, dark falls, sometimes voined or margined.

Dicotoma or Vesper iris are new to most irisarians. These come from China and as they are grown on the thatched roofs, are also called Roof Iris. They bloom during the latter part of July and August and sometimes into September. Stalks bear from 60 to 225 jewel like blooms, at Vester time or tea time each day. Colors range deep purple, through the lavenders, to white and look like butterflies with open wings. With each order of \$2.00 or more, I will include four of these plants for 50ϕ . They are rare, so you can be the first in your neighborhood to have them.

TERMS

CASH WITH ORDER - POSTAGE WILL BE PAID ON ORDERS OVER \$2.00.

Some people believe Victory Gardens are of prime importance. I agree. But flowers are food for the soul and when have we ever needed food for the soul more than now.

> 1943 INTRODUCTION

STARLET, (Lapham-Horton 1943) Neat, free flowering small iris that is a distinctive and very lovely pure rose pink, with pronounced golden "throat". Mr. Lapham tells me this is one of his favorites - - - - - - - - - - \$5.00
